Total 21693 Notes 1 2 3 ... 2170 1

Result : after the server is stopped, data on the dashboard can still be accessed normally

Catatan : sistem yang telah diberhentikan diakses melalui load balancer, jika server mengalami kendala maka sistem dashboard order akan tetap berjalan dan tidak mempengaruhi proses bisnis.

Notes : the dashboard data handled by load balancer system, whenever the main server is not available the data still can be accessed through load balancer
